

At PREFABRICADOS Y MALLAS, S.L., we have implemented a Quality Management System based on the ISO 9001 standard, the scope of which is the manufacture of electro-welded mesh using smooth and curved wire. We are one of the leading companies in this sector, thanks to our extensive experience and the knowledge acquired over the years.

The primary objective of our Quality Management System is to achieve maximum customer satisfaction by providing personalized and continuous support to each client. To this end, we have established this policy, which provides a framework for setting Quality Objectives and is based on:

- The commitment to comply with the requirements applicable to PREFABRICADOS Y MALLAS, S.L., as well as any legal requirements applicable to our organization.
- The continuous improvement of all Quality Management processes.

We believe that a high level of commitment from our staff is essential to achieving what is defined in this document. In addition to providing a training plan tailored to the identified needs, we involve them in the development of the System.

This Policy is appropriate to the purpose and context of our company. We make it available to internal and external stakeholders.
